👤 INTRO

Highly skilled and innovative software engineer with 2+ years of experience in full stack development. Proficient in JavaScript, PHP, Laravel, Angular, Apache Cordova, and Ionic framework. Strong understanding of web development best practices, including performance optimization, security, and scalability. Experienced in collaborating with cross-functional teams to deliver high-quality solutions. Passionate about software engineering, data analysis, and database management. I am also a highly curious about IoT and artificial intelligence.

💼 WORK EXPERIENCE

Software Engineer | Impactive Digital | 2023 - 1970

- Developed and maintained Africa Water Solutions' data collection application, significantly improving work efficiency by 70%. - Implemented advanced features, such as image capture and geolocation, using Framework7 and Apache Cordova. - Optimized website performance through the implementation of lazy loading and code splitting. - Collaborated with cross-functional teams to ensure responsive and accessible mobile applications and web dashboards. - Deployed the APIs to a linux server which gave me a bigger experience with linux commands.

Web Designer | Google | 2021 - 1970

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic

🎓 EDUCATION

Software Engineer | College of Computing and informatics Sciences | 2023 - 2023

- Developed and maintained Africa Water Solutions' data collection application, significantly improving work efficiency by 70%. - Implemented advanced features, such as image capture and geolocation, using Framework7 and Apache Cordova. - Optimized website performance through the implementation of lazy loading and code splitting. - Collaborated with cross-functional teams to ensure responsive and accessible mobile applications and web dashboards. - Deployed the APIs to a linux server which gave me a bigger experience with linux commands.
